Trail Policy Landscape
Here are the bills we are tracking on Capital Hill

• The House of Representatives has Passed the Outdoors for All Act!
  The Outdoors for All Act will help underserved communities access parks and public lands, protect areas sacred to indigenous peoples, ensure clean and
safe drinking water, and promote the outdoor recreation economy.

- **Reps Curtis and Welch Reintroduce Bipartisan Bill to Boost Funding for Recreational Trails**
  Since 1991 the Recreational Trails Program has provided funding to states to develop and maintain outdoor recreational trails, allowing millions of Americans and their families to enjoy activities such as off-roading, snowmobiling, hiking, bicycling, and cross-country skiing.

- **The Parks, Jobs and Equity Act was Introduced in the House by Representatives Nanette Diaz Barragán (CA-44), Mike Turner (OH-10), and Joe Neguse (CO-2)**
  The bipartisan bill would dedicate $500 million to the creation or redevelopment local parks, playgrounds, trails, and green spaces. The pandemic has shown that parks are critical to community health. With local governments and park agency budgets under enormous strain, this funding would protect or create thousands of at-risk jobs while generating $1.37 billion in economic activity.

- **Call on Congress to Support the Connecting America's Active Transportation System Act (H.R.5696/S-3391)**
  Congress should take this opportunity to invest in connecting America’s trails, walking and bicycling infrastructure to create an active transportation system for the country. Sens. Ed Markey (D-MA), Dan Sullivan (R-AK) and Chris Van Hollen (D-MD) are the original cosponsors of the Connecting America’s Active Transportation System Act—a bipartisan bill that creates safe, convenient walking and biking routes in our communities while addressing critical challenges to our economy, climate, health and safety.

- **Transit to Trails Act Introduced by Reps. Jimmy Gomez (CA) and Steve Stivers (OH) Sen. Cory Booker (NJ)**
  The Transit to Trails Act seeks to reduce barriers between people and access to nature. The bill establishes a grant program under the Department of Transportation to provide transportation systems to and from underserved communities and public lands.

**Resources and Training**

**Trail Tools: Power Tools**
Though the bulk of trail work involves the use of hand tools, there are occasions where power tools are more efficient. *Read more...*

**Photo Gallery: Trails with Two Adjacent Treads**
Separate trails in the same corridor provide for different activities. *Read more...*

**Green Schoolyards for All Children**
A growing body of scientific evidence suggests that the creation of nature-rich urban environments, including schoolyards with natural play spaces and gardens, can help
improve physical and mental health, cognitive skills, creativity, and social bonding.

**Training Calendar and Volunteer Opportunities**

Check out our training calendar for upcoming conferences and events. You can also find volunteer opportunities here. If you have an opportunity for us to post, please email trailhead@americantrails.org.

Sponsor an American Trails Webinar to Reach 500 to 1,100 Attendees
We plan to continue to offer increased options for training via our Advancing Trails Webinar Series in place of the many conferences that have been canceled/postponed this year and are continuing to hold one webinar per week, when possible. It is also our intent to continue to make all of these webinars FREE to the public, but we need your sponsorship dollars to help make this possible!

All webinars noted below have partner sponsorships available ($250) but only the ones marked with an asterisk (*) have public sponsorships available ($3,000 – listed as main sponsor with more recognition). We added MORE benefits for public sponsors in 2021. Email candace@americantrails.org to become a
2021 Webinars (With Dates):
